Benefits of Cork Trowels

A favorite of installers, trowels with cork handles harness the natural moisture repellent properties of cork to provide a secure grip even with wet hands. Sustainable and naturally ergonomic, cork handles contribute to minimize fatigue and are easy to cleanup.

Tile Leveling System

The ORIGINAL

LASH®
### LEVEL ALIGN SPACE HOLD

For perfect tile-to-tile leveling

The patented LASH® Tile Leveling System is designed for quick installation and reduces costly call backs by ensuring that the finished floor surface is lippage-free. This time-saving system helps adjust the height of the tiles and evenly holds their edges throughout the curing process of the setting material.

- For use with all floor and wall tiles between 1/4" and 7/16" thick
- Durable nylon construction for a secure installation
- Specially designed break-off point on clips for swift removal
- Produces 1/16" or 1/8" joint spacing
- May be combined with regular tile spacers for wider joints - up to 1/4"
- Wedges are reusable

UNDERLAYMENTS & BARRIERS

QEP offers both Aquabar® "B" Moisture Vapor Barrier and cork underlayments to enhance crack suppression. Natural Cork and Cork Plus Underlayments help control sound under ceramic tile and stone and reduce thermal transmissions. Cork Plus is made of natural cork plus recycled EVA foam, making it more flexible.

Benefits of Cork Underlayment

A staple in green building, cork offers superior durability, is impermeable, resistant to mold, mildew, and termites. A natural insulator, cork is fire resistant, and provides unrivaled noise reduction properties.

Our cork sheets and rolls exceed the International Building Code requirements for ambient and impact sound transmission. Cork is an excellent resource for underlayment, and comes from a renewable resource. Cork underlayment is carbon negative and is the exceptional choice.

Using cork underlayment contributes to LEED Green Building Credits.

Cork Plus Sheets and Rolls

CORK PLUS UNDERLAYMENT = 65% NATURALLY RENEWING CORK + 35% RECYCLED VIRGIN EVA FOAM

- Constructed of 65% natural cork and 35% recycled EVA foam, making it more flexible and less to prone to breakage than standard cork underlayment
- Acoustical sound control under ceramic tile and stone
- Prevents the transfer of subfloor cracks to the finished floor
- Reduces thermal transmission, increasing effectiveness of floor heating systems
- Can also be used under laminate and floating floors
- Easy to install on and above grade in both glue-down and floating floor installations

QEP Warranty

All QEP products include a Manufacturer's Limited Warranty ensuring the product is free from defects in materials and workmanship for a period of one-year from the date of purchase. This warranty does not cover accidental damages, unreasonable or improper use, normal wear and tear, loss of use, or consequential damages. Some items, such as electric tile saws, mixers and cutters, carry a QEP 1-Year Limited Warranty. Product registration, included with the product packaging, must completed within 30 days of purchase for eligibility. This warranty covers refund or replacement due to a defect in materials or workmanship for a term of one year.

About California Proposition 65

Proposition 65 is a California regulatory law that requires businesses to notify California consumers about specific chemicals in the products they purchase so they can make informed decisions about protecting themselves from exposure to these chemicals. This law requires companies to properly label products that contain chemical(s) above certain threshold levels.

As part of QEP Co. Inc.'s continued best business practice and compliance program, we comply with Proposition 65 warning requirements and provide product-associated warnings. We are dedicated to meeting consumer product safety requirements applicable to our products and strive to provide high quality and safe products.

For more information on California Proposition 65, go to www.P65Warnings.ca.gov.
