Drill Bit Kit

MEMBER RATING: 7.7 BEST FEATURE: PERFORMANCE

Q.E.P. CO. INC., 800-777-8665, WWW.QEP.COM

The Brutus Diamond Drill Bit Kit (\$11.97 for a 1/4-in. kit and \$9.88 for a 5/16-in. kit) enables you to drill holes in porcelain, ceramic, marble, granite and even reinforced concrete for installing towel bars, toilet paper holders, vanities and more. The kit includes a durable bit that will drill 30 holes and a drill guide sleeve that holds the bit in place, water-cooling cups that lengthen the bit's life and mounting tape to hold the cups in place. The diamond-tip bit can cut most holes in less than 45 seconds.

Michael Sullivan, Itasca, IL: "The best feature of the Brutus Diamond Drill Bit Kit was the water holder, which eliminated dust."

Edward Findlay, Corpus Christi, TX: "I drilled holes to mount a soap dish and an accessory rack. It was the easiest tile drilling I have done."

Ceiling Light

MEMBER RATING: 8.6 BEST FEATURE: EASE OF INSTALLATION

WIRELESS ENVIRONMENT LLC, 877-298-9082, WWW.MRBEAMS.COM

The Anywhere Ceiling Light (\$39.99) is a motion-sensor LED lamp that provides 80 lumens of light wherever you need it. Powered by four C batteries that should last for more than a year, the light can be mounted to any ceiling and is IP44-rated for indoor and outdoor use. It provides a convenient way to add lighting in places without electrical wiring, such as pantries, closets, attics, showers, porches, gazebos, RVs or boats.

Joe LaVigna, Sleepy Hollow, IL: "Dark stairways and hallways can be illuminated without additional fixtures, and the unit's sensitivity to motion makes it very useful."

Rob Soukup, Inver Grove, MN: "No wiring was the best feature of the Anywhere Ceiling Light, and the light was brighter than I expected."

Multitool

MEMBER RATING: 8.4 BEST FEATURE: EASE OF USE

SLK DEVELOPMENT GROUP LLC, 866-930-5203, WWW.LEVELBEST2.COM

The Level Best2 4-in-1 Multi-Tool (\$12.99 for a 12-in. model and \$9.49 for a 6-in. model) incorporates level bubbles into a carpenter's square so you can level, plumb and square at the same time. It's made of high-impact plastic that has a slot for marking, embossed rulers and a 90-degree angle for installing windows, doors, shelving and cabinets; building stairs; hanging pictures; and more.

Jill Murrow, Edmond, OK: "The Level Best2 allowed me to level, measure, mark and square with just one tool."

Steve Swanson, Virginia Beach, VA: "I recently moved into a new home, the Level Best2 has helped with everything from hanging pictures and shelves to repairing a cabinet door. Seeing the plumb and level at the same time is fantastic."

Anti-vibration Gloves

MEMBER RATING: 8.7 BEST FEATURE: PERFORMANCE

CESTUSLINE INC., (503) 894-8549, WWW.CESTUSLINE.COM

Cestusline's TrembleX Gloves (\$49.99) have hexagonal Memory Gel palm and finger pads that absorb shock and vibration from power tools such as impact drivers. The gloves' curved fingers reduce strain and help to maximize gripping power by offering full flexibility. Other features include an adjustable wrist closure, a terrycloth sweat wipe and a breathable design. The gloves are available in medium to XXL sizes.

Harry Pressman, Sykesville, MD: "The TrembleX gloves have a comfortable, breathable fit and great shock resistance."

Chris Wegner, Niles, MI: "I was impressed by the gloves' anti-shock features. They performed extremely well while using a chain saw, a splitting ax and an impact driver." ♦
