Insert extension handle  
(handle not included)

**FEATURES STIFF NYLON  
V-CUT BRISTLES FOR  
CLEANING DEEP INTO GROUT**

The QEP® Large Handle Scrub Brush is ideal to remove unwanted buildup from tiles and grout lines. It is designed with a built-in scraper to tackle tough dirt and grime, and it features a large handle for a firm grip, stiff nylon V-cut bristles for cleaning deep into grout, and a swivel head pole attachment for use standing up that provides additional leverage. This brush works on all grout joint widths, and its corner brush head easily cleans around corners, performing great on grout and tile, and hard surfaces like concrete. Multipurpose, it can be used for cleaning jobs at home, patio, garage, car, camper, boat, motorcycle or trailer.
