PRODUCT INFO

The QEP® Diamond Sanding Blocks are a versatile tool to smooth tile, stone, granite, glass, ceramic, and marble. They are manufactured with superior brazed diamond bonding, and a lightweight foam base that makes it flexible and easy to use in hard to reach places, corners, and edges. These sanding blocks are a must-have for contractors in stone fabrication, restoration as well as counter top production. There are four grits; coarse, medium, fine and polishing grit. Choose the right grit for your application. Durable, they can be used wet or dry, and rinsed after use to use it again.

Professional Tools. Professional Results.
