**SQUARE CORNERS FOR
MAXIMUM PERFORMANCE
WHEN WORKING WITH NARROW
GROUT LINES AND TIGHT CORNERS**

Item No.	Packaging Details	Qty per Case
70006-18	Individually bagged	18

The QEP® Pro Square Grouting Sponge is designed with hydrophilic cells that offer greater capacity to soak up water and quickly wash out grout and residue during floor and wall tile installation. Its square corners provide maximum performance when working with narrow grout lines and tight corners. Heavy-duty and highly absorbent for faster cleanup, its durable polyurethane construction makes it a preferred sponge by professional installers. Sponge measures 6.75" x 4.67" x 2.37".
