

ARTISAN Power Nipper

32016

COMFORT-ENHANCING DESIGN

Specialty gel delivers unbeatable grip and shock absorption. Flared tops stop slippage; contoured handles boost control and cut fatigue

ADJUSTABLE

Three cut settings
5 mm, 10 mm, and 13 mm

INNOVATIVE

Offset 5/8" titanium coated tungsten carbide tips provide cleaner edges and smoother cuts

REDUCE IMPACT

Internal bumpers for cushioned impact and steel springs return the grip to the desired set opening

LIGHT WEIGHT

Ultra-light die-cast aluminum manufacture for enduring performance

PRECISE

Wide offset jaw allows for unlimited depth of cut

The QEP® Artisan Power Nipper is engineered for cutting across all traditional tile materials. Designed in the USA, its wide, offset jaw tips enable unlimited cutting depth, making it ideal for intricate and deep cuts. Designed for comfort and control, the dual rubber impact bumpers and gel-grip handle minimize shock and hand fatigue during use. Featuring a three-stage ball bearing system with adjustable cut settings at 5 mm, 10 mm, and 13 mm, this design allows for closer contact with the tile while reducing hand fatigue by minimizing the need to repeatedly open and close the nipper.

Professional Tools. Professional Results.
