

4" Dry Polishing Pads

10152 / 10153 / 10154 / 10155 / 10156 / 10157 /
10158 / 10159 / 10161 / 10162

MAX RPM 4000

HOOK AND LOOP BACKING
For quick and secure attachment to the backing pad

for grinders

WIDE APPLICATION
Ideal for polishing ceramic, porcelain, engineered stone, concrete, marble or granite

DIAMOND CERAMIC BOND
Higher abrasion resistance for long term use

5/8"-11 THREADING AND COMPATIBLE WITH HOOK AND LOOP BACKED POLISHING PADS

10152 (50 Grit)

ITEM #	DESCRIPTION
10152	50 Grit
10153	100 Grit
10154	200 Grit
10155	400 Grit

ITEM #	DESCRIPTION
10158	800 Grit
10159	1500 Grit
10161	3000 Grit
10162	Buff

ITEM #	DESCRIPTION
10156	Backing Pad
10157	4" Dry Polishing Pad Set (Contains: 10158, 10159, 10161, 10162)

The QEP® Dry Polishing Pads offer superior performance, crafted with a diamond ceramic bond instead of traditional resin. This advanced composition offers heat resistance, making them ideal for both wet and dry applications. Designed for versatility, these pads deliver fast material removal and a smooth, refined finish. Color-coded and labeled for immediate and accurate identification. Begin with lower grits 50, 100 pads for initial grinding and shaping, then progress to 200, 400, 800 for medium smoothing and buffing and 1500, 3000 and buff for final finishing. The semi-flexible backing pad is engineered to securely hold all polishing pads using a reliable hook-and-loop system. It features a 5/8"-11 threaded connection for direct attachment to grinders and electric polishers. The backing pad reduces fatigue during polishing work without losing firmness on flat surfaces.

Professional Tools. Professional Results.
